All concerned,

Upon arrival, E1 arrived on scene and had a working fire in the deli section of Safeway. This was a fire in one of the fryers in the kitchen area. Crews made an aggressive interior fire attack to limit the fire to the kitchen area. There was no fire extension or fire damage anywhere else in the store. Unfortunately, there was heavy smoke damage to the whole interior of the store. The store manager and I made a decision to shut the store down until The County Health Department arrived on scene. There were no

injuries to civilians or firefighters. All employees made it out of the building safely. If you have any questions do not hesitate to contact me.
